

# The Palgrave Dictionary of Transnational History

From the mid-19th century to the present day

edited by Akira Iriye and Pierre-Yves Saunier

Written and edited by many of the world's foremost scholars of transnational history, this Dictionary challenges readers to look at the contemporary world in a new light.

A unique contribution to understanding world history since 1850, not as a sum of national histories or a chronicle of international relations, but as a dynamic interplay of transnational forces, whether economic, social or cultural.

*The Palgrave Dictionary of Transnational History* is written by over 350 authors from 25 countries and numerous subject disciplines. They share the belief that modern world history must be understood, not simply as a sum of national histories or a chronicle of inter-state affairs, but also as a story of connections and circulation, by people, goods, ideas and skills. These are not always confined to any particular country or region of the world, nor are they identifiable with states or governments. The essence of history can only be fully understood by following the flows, ties and appropriations they trigger across borders. Even such familiar items as taxation, the Cold War or beauty take on fresh significance when they are viewed in the framework, not of national or international affairs but of transnational relations and interactions.

This unique volume provides scholars and students with an easy-to-use reference tool of over 400 entries to further their understanding of modern world history.

Palgrave Macmillan want to ensure that *The Palgrave Dictionary of Transnational History* is available in all major research centres. As a contributor, recommend *The Palgrave Dictionary of Transnational History* to your librarian for purchase.

To: The librarian/Library Acquisition Committee

I would like to recommend *The Palgrave Dictionary of Transnational History* for the library. Please include it in your next review meeting with my recommendation.

Publication Details:

Publication Date	January 2009
